The F. E. Warren Hunter Management Area 2021

The Hunter Management Program, as part of the Wyoming Game and Fish Department's Access Yes Program, manages hunters on large sections of private lands and, by doing so, preserves hunting opportunities for Wyoming hunters. A Hunter Management Area (HMA) may refer solely to private lands or a combination of private, state trust, and federal lands within ranch boundaries.

The F. E. Warren Hunter Management Area is located at the west edge of the City of Cheyenne and is accessible from I-25 at the Randall Avenue (Exit 11) Entrance. This property is an active military installation, and also provides a home for a large diversity of wildlife such as antelope, waterfowl, and rabbits, as well as many nongame species.

Hunters must obtain written permission prior to hunting on the HMA. **Each** hunter must have a complete permission slip with them and each vehicle must have a vehicle identification slip visible on the dash, windshield, or mirror. As part of the HMA agreements, each access area has a unique set of ranch rules, created cooperatively with the landowners. It is the hunters' responsibility to know, understand and comply with all Ranch Rules and Game and Fish Commission Regulations. Failure to comply may result in fines and/or the termination of access privileges.

Tips for Successful Archery Hunting:

- **Don't take shots further than you are confident.** The risk of wounding an animal is not worth it. A better shot will present itself later if you're patient.
- **Wait for shots at relaxed (feeding) animals.** Alert animals will often react to the shot and greatly increase the risk of a miss.
- **Do not immediately pursue wounded animals.** Giving animals 20-60 minutes to rest allows their stress hormones to fade and decreases the distance they will travel.

Military or Department of Defense Identification is required to enter F. E. Warren Air Force Base!

The Wyoming Game & Fish Department commends this landowner for their contributions to habitat, sound wildlife management, and hunter access. Hunters should abide by the ranch rules and respect the landowner and the land for continued access opportunities. **Remember, we are guests on their property!**

Stay away from and report unexploded ordnance (UXO) to base personnel immediately.
